

Stenhøj Biglift 4.60 Saaa

Stenhøj Biglift 4.60 Saaa

Twin-ram lifts with arms

The STENHØJ Biglift are twin-ram hydraulic lifts with triple telescopic arms and adjustable flex pads.

The lift is developed for quick and easy lifting of all sizes vans.

The lift is suitable for all kinds of repairs that require free access to wheels and underbody; e.g. removal and repair of motor, transmission etc.

Due to the triple telescopic arms and a very low min. height Biglift can be used for lifting of small cars up to big transporters.

Biglift is available in 2 widths and has a lifting capacity of 6 t.

2 x 2 hard-chrome plated and inversed hydraulic cylinders running on teflon rings.

We offer a large program of extra pads; fixed as well as adjustable.

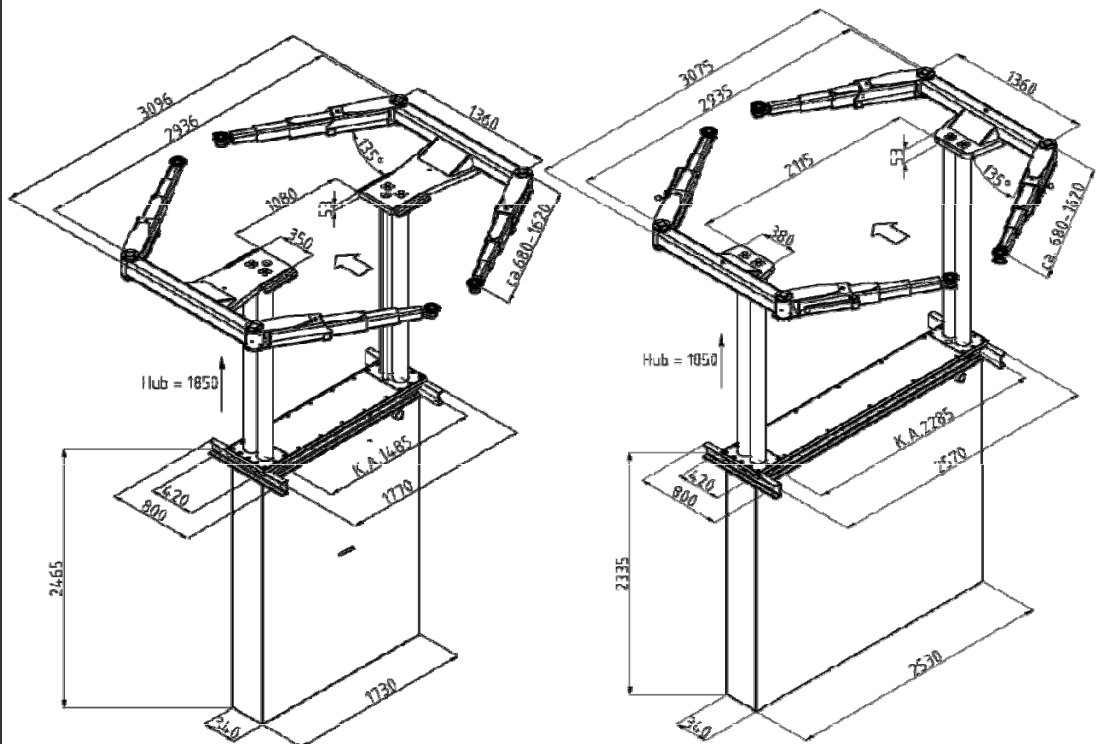

Biglift 4.60 Saaa 230 wide version – 2285 mm between pistons.
