

ULTIMATE UL-245E

▶ **4.5-tonne 2-Post
Clear Floor Hoist**

Specifications

Height Overall
3900mm / 4050mm (high)

Width Overall
3550mm

Lifting Capacity
4500kg

Power
240V/50Hz/1Ph (15 Amp) or
415V/50Hz/3Ph (20 Amp)

Key Features

- Reinforced top extension sleeve
- Full-length overlap extension
- Universal asymmetric/symmetric capability
- High-flow hydraulic pump
- Lift pad extensions & truck adaptors included
- WorkSafe-registered

Rope

Japanese/Italian
Oil Seals

Solid Steel
X Construction

Aluminium Alloy Shell
& Copper Core Motor

Drawing on over four decades of hands-on industry experience, P&M Automotive Equipment has designed the Ultimate UL-245E to answer the call for a safer, more capable heavy-duty hoist.

The Ultimate UL-245E is built for workshops needing extra height and versatile lifting. With a 4.5-tonne capacity and extended clear-floor design, it's ideal for high-roof vans, 4x4s and modified vehicles. Reinforced top extension sleeves and full-length

overlap extensions provide strong, stable load support. Available in (3900 mm) or high (4050 mm) settings, the UL-245E features universal asymmetric/symmetric arm capability. High-flow pumps deliver faster operation, while safety-focused wiring and

integrated limit switches ensure reliable performance. WorkSafe-registered and available in 240V/15A or 415V, the UL-245E includes lift pad extensions and truck adaptors, offering flexibility for both light passenger vehicles and larger commercial models.
