

ULTIMATE UL-6500E

6.5-tonne 4-Post Hoist
with 2x 3T Jacking Beams

Ultimate UL-6500E
6.5-tonne 4-Post Hoist
with 2 x 3T Jacking Beams

Specifications

Height Overall	2164mm
Width Overall	3363mm
Platform Length	5771mm
Length Overall (incl ramps)	6971mm
Lifting Height	220-1700mm
Lifting Capacity	6500kg
Power	240V/50Hz/1Ph (15 Amp) or 415V/50Hz/3Ph (20 Amp)
Net Weight	1300kg
Gross Weight	1460kg
Packing Size	5770 x 720 x 830mm

EU Test Standard

Steel Core Wire
Rope

Japanese/Italian
Oil Seals

Solid Steel
X Construction

Aluminium Alloy Shell
& Copper Core Motor

Drawing on over four decades of hands-on industry experience, P&M Automotive Equipment has designed the Ultimate UL-6500E to answer the call for a safer, more capable heavy-duty hoist.

The UL-6500E combines a 6.5-tonne lifting capacity with a reinforced platform design and low-profile 2164mm frame, offering superior stability and lifting power for larger vehicles, trucks and commercial fleets.

Every detail is crafted for performance - from the steel-core wire ropes and solid steel X-frame to the Japanese/Italian oil seals, aluminium alloy motor housing, and copper-core motor.

Safety and reliability are non-negotiable, with broken wire rope protection, 150% static / 115% dynamic EU testing compliance, and 2 x 3-tonne jacking beams for smooth, wheels-free operation.
